PERSONAL SUMMARY

I am a web developer who is proficient in both back-end and front-end builds, both with and without frameworks. I have a keen interest in building beautiful websites that don't compromise accessibility. I would ideally love to land a front-end focused role where I can incorporate my visual communication knowledge with my tech skills.

KEY COMPETENCIES

WORK HISTORY

Associate M365 Developer

ENGAGE SQUARED | AUGUST '21 - PRESENT

As an associate M365 developer at Engage Squared, I am responsible for working with Microsoft consultants to build a variety of business solutions using the Microsoft suite of tools and development frameworks. I have worked on intranets, SPFx web parts, and Microsoft Teams apps in this role.

Web Developer

REDHILL EDUCATION | JULY '21 - AUGUST '21

As a developer at RedHill Education, I was tasked to review and implement proposed changes to the staff intranet to assist in employee engagement and accessibility and availability of information for employees across the company.

QUALIFICATIONS

Academy of Information Technology

FLEX TRACK BOOTCAMP | OCT 2020 - SEPT 2021

Diploma of Information Technology

- Built static pages with HTML/CSS/Sass
- Built a Trivia game using Ruby that runs entirely on the CLI
- Participated in 48hr Hackathon to build a vanilla JS web application
- Built a functional two-sided marketplace in Ruby on Rails

Scrum Alliance

CERTIFIED SCRUM MASTER COURSE | COMPLETED OCTOBER 2021
